26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: 24 hours: Spread is possible if fire escapes current containment. Spread in any direction is possible if fire escapes containment due to erratic thunderstorm winds. 48 hours: 72 hours:						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: 24 hours: Holly Shelter gameland and associated wildlife habitat and timber resources. Threatened and endangered species are present. 48 hours: 72 hours:

29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan. Deep organic soils continue to burn due to long term drying. Very high heat causing						

firefighter safety issues.

---	---

32: Today's observed fire behavior (leave blank for non-fire events):
Isolated interior burning, smoldering, creeping, and burning of organic soil continues.

33: Significant events today (closures, evacuations, significant progress made, etc.):

34: Forecasted Weather for next Operational Period Wind Speed (mph): 3 Temperature: 100 Wind Direction: SW Relative Humidity: 41	35: Estimated Control Date and Time:	36: Projected Final Size: 31,140	37: Estimated Final Cost:
--	--------------------------------------	--	---------------------------

38: Actions planned for next operational period:
Continue mop-up and patrol of all lines with a focus on the southern side of the fire. Continue rehabilitation as possible. Continue to assess resource needs and adjust as needed. A transition meeting between the Brandon IMT and District 8 will take place at 1100 hours tomorrow.

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **Medium**
2. Difficulty of Terrain - **High**

40: Given the current constraints, when will the chosen management strategy succeed?
When the fire receives sufficient rainfall to extinguish interior burning that could threaten containment.

41: Projected demobilization start date:

42: Remarks:
In addition to the resources listed below, 1 motor grader is assisting with rehabilitation and road maintenance.
